Personals and Briefs.

Miss Lucy Quinlan of Hartford is spending a few days at her home on Twelfth street. Mrs. Michael McClafferty of Sixth street is somewhat improved after an extended illness,

Mrs. Frederick Pratt of Montauk avenue, New London, has been visit-ing relatives in town.

William McMillan returned to Mid-dleboro, Mass., on Monday, after spending several days at his home on Boswell avenue.

William A. Pitcher, William J. Kramer, James Kirby of Greeneville and George G. Grant of Taftville comprised an automobile party to Willimantic Monday.

Raymond Clark of Preston, who was kicked in the mouth by a horse some time ago is having his injured teeth filled. His fractured upper jawbone has knit together again satisfactorily. Mr. and Mrs. Fred C. Healey and two children of Allenton, R. I., have been guests of Mrs. Healey's brother, Elmer E. Mulkin and family of Cen-tral avenue. They also visited rela-tives in Baltic.

A frisky horse belonging to a North Main street dealer got away Monday morning while being harnessed. The animal dragged his owner across the street and then broke loose, and was corralled again only after much patient work on the part of the dealer and his employes.

Free Employment Bureaus.

The report of the five free public employment bureaus of the state for the mouth of March shows an increase over the month of February in the work of all departments, with the exception of the number of applicants furnished with help, where there was a slight decrease. The work of the bureau follows in Norwich:

Norwich: Applications for employment 4 4, for help 35; situations secured 23.

The total number of applications for imployment were 1,180; for help 956; and situations secured 719.

societies of the Congregational churches, which was held in the Osgood Memorial on Monday afternoon. Mrs. William G. Henderson, president of the Park church society, presided and conducted the opening devotional exercises. An interesting address was given by Miss Mary W. Riggs, a missionary at Harpoot, eastern Turkey.

Miss Riggs was dressed in the outdoor cotume of a Turkish woman of the ordinary class, consisting of the sheet and veil, and making her totally unrecognizable on her first appearance.

Miss Riggs has been working for seven years among the Armenians in Turkey, having gone first to the girls' school at Adadszar and later teaching in the girls' department of the Euphrates college at Harpoot. She spoke of the three kinds of work which are being carried on—the educational, the medical, and the—touring. Euphrates college is the center of the educational, the medical, and the—touring. Euphrates college is the center of the educational. This has all grades from kindergarten to college, making a seventeen years' course in all. There are 375 pupils in the girls' department, of whom 95 are in the boarding school. The boys' department has even more pupils. These girls come from many different places in Turkey, but most of them from the villages on the plain around Harpoot. Many of the undergraduates teach in these villages and

RE-ELECT OFFICERS Organization Perfected for the Year-Bids Asked for Washington Street

At the regular monthly meeting on Monday of the board of park commissioners the annual election took place, the officers being re-elected as follows: President, Joseph T. Fanning; vice president, Rev. Neilson Poe Carey, and secretary. William A. Norton.

The commissioners have caused a survey of the proposed Wasaiington street entrance to Mohegan park, and specifications have been drawn up and submitted to various contractors for specifications have been drawn up and submitted to various contractors for bids. The new entrance, which will be about midway between Chelsea Parade and the hospital corner, will provide easy access to the lofty hilltops from where is obtainable a grand view of the surrounding country, and undoubtedly will form one of the promonent beauty spots of the park. By some, this part of the park is compared with East Rock park in New Haven.

in many ways.

The enumerators have finished their test blanks, and the local men did meritorious work. The premilinary work was of value in enabling various mis-

torious work. The premilinary work was of value in enabling various mistakes to be rectified and improvements to be pointed out. The statement that in 1,400 papers throughout the state there was not one absolutely perfect. Shows the difficulty of the work, especially when interrogating people who are not familiar with the English tongue.

Under the statutes governing the completed within a month, and in the cities the work is limited to 15 days from Friday of this week. It is expected that some of the returns from the cities will be received as early as the first week in June, but the exact population of the entire country will not be determined before some time in September. The census officials will however, know within a few thousand of the number long before the close of the summer months. They will be able to reach a substantially accurate conclusion by their pay rolls, but this will be more or less speculative, and the figures will not be given out.

There will be some innovations in the next census, and they are expected to improve the reports. For instance, the country farmer is to be afforded an opportunity to consider in advance the statements he shall make as to the country farmer is to be afforded an opportunity to consider in advance the statements he shall make as to the country farmer is to be afforded an opportunity to consider in advance to the statements he shall make as to the country farmer is to be afforded an opportunity to consider in advance to the statements he shall make as to the country farmer is to be afforded an opportunity to consider in advance to the statements he shall make as to the country farmer is to be afforded an opportunity to consider in advance to include the statements he shall make as to the country farmer is to be afforded an opportunity to consider in advance to include the statements he shall make as to the country farmer is to be afforded an opportunity to consider in advance to include the statements he shall make as to the conditions prevailing with reference t

the statements he shall make as to the conditions prevailing with reference to his holdings, and the same advantage is to be given heads of families in cities as to the enumeration of their households. In both cases sheets are to be passed around before the official calls of the enumerators, in the hopes that both ruralist and urbamite will be more complete in their returns than otherwise they might be. There also is to be unusual care in the supervision of the work of the enumerators. In the cities supervisors will camp on the heels of the men with the pencils during the first day of their work, and in the country districts the sheets will be especially scrutinized.

The inquiry will comprise three principal branches: Population, agriculture and mining and manufacturing. The questions will sover the sagreage the value and the product of

ng. The questions will sover the acreage the value and the product of farms, including an especial enumera-tion of animals, as it will the capital invested, the value of products, and

invested, the value of products, and the number of employes of mining and manufacturing plants.

The enumerators will want to know a good deal about you for the population volumes. They not only will insist upon knowing your sex, but will expect you to reveal your age, and will ask you to tell whether you are white, black, mulatto, Chinese, Japanese or Indian; whether you are married or single, and if married how often; whether you are American or foreign born, and if the latter, that you give not only your unationality, but you give not only your nationality, but your race and mother tongue. Then, if you are a woman, you are to tell how many children have been born to you; and in any event, you are to tell all about your education, your parentage and your employment. All this information is to be for the general average and for the ear only of one of the enumerators. He is sworn not to reveal any of the awful truths.

The many entities of the information moving from one of the village tene-

of the enumerators. He is sworn not to reveal any of the awful truths.

The mere getting of the information will cost the government the pretty sum of \$5,500,000. Of this amount, \$4,500,000 will be paid to enumerators and the remaining million to supervisors. With a few exceptions the enumerators will be paid on the basis of the work done. In the country the remuneration will be from 20 to 30 cents for each farm reported, while the pay for names will range from 2 to 4 cents. The districts will average 1,300 names, 1,000 in the country and 1,500 names, 1,000 in the country and 1,600 in the cities. In the southern states there will be two enumerators in each district, one white and the other black. All told, there will be about 1,500 negro enumerators, but some of them will be employed in the northern states. In the south the negroes will be visited by enumerators of their own race, as will also the whites by their own people. There also will be about 500 women elumerators, wille a bout 500 women elumerators, while Nevada will close the procession with 86.

The results of the labors of this army of people will be published in 12 or 15 large volumes, which will come out from time to thme for two or three years after the completion of the work in the field.

RETURN TO WORK. Piles Quickly

Management Did a Fine Thing for the Help and There is Good Feeling on Both Sides.

The fifty weavers at the Reliance Woolen company who have been on strike returned to work on Monday according to the agreement effected on Friday. The strike has been settled with good feeling on both sides through the way that negotiations have been conducted and with the results obtained.

Up to the time of the strike the Re-

have instruction in all kinds of housework. It costs a little over \$35 a year for board and tuition for a girl at the college. All the pupils are Armenians. The medical work is most encouraging. A new hospital, the Annie Tracy Riggs, is just being opened.

This is down on the plain in the newer and more rapidly growing city. This gives greater opportunity for reaching all kinds of people—Turks, Kurds, Arabs, etc., being treated here. The third way of reaching the people work. Mrs. Albert M. Perkins.

On Monday morning about 9 o'clock the death of Mrs. Albert M. Perkins occurred at her late home, in Preston, at Brewster's Neck, after a long illness. Mrs. Perkins was the daughter of Ebenezer and Ruth A. Sheldon Carpenter, and was born in Ashaway, R. I. Her malden name was Harriet N. Carpenter, and she married Albert M. Carpenter, and she married Albert M. Perkins. They have resided at Brewster's Neck for many years, Mrs. Perkins being a farmen. She had a wide circle of friends in that vicinity who will deeply regret her death.

Hesides her husband she leaves a son. William Perkins, who lives at home.

Charles H. Bailey.

Charles H. Bailey.

Word was received here on Monday morning of the death of Charles H. Bailey, which occurred in New York city at a hospital on Sunday evening. His sickness was not known here and his death came as a surprise to his relatives and friends.

Mr. Bailey was born in Bozrah on March 20, 1861, the son of William F. and Phoebe Johnson Bailey. He was well known in Bozrah, but has been away from this section for many years. For the past ten years he has been acting as a nurse, having done such work at a sanitarium in Stamford, and for a time was at the Norwich state hospital.

He is survived by his father. William Joseph N. Phillips of 319 West Main street, who had been appointed centure enumerator for the East Great Plain district and that part of the town, has been taken seriously ill, and therefore will not be able to carry out the duties of the position.

To fill this vacancy, County Supervisor C. J. Downes has secured permission from State Director Balley of New Haven to appoint James Conway of 274 Main street. Mr. Conway is without doubt the youngest enumerator in the city, being 19 years old, but he is well qualified for the place in many ways.

Mr. Balley was born in Bozrah on March 20, 1861, the son of William F. Balley, in Bozrah on March 20, 1861, the son of William F. Balley in Bozrah, but has been away from this section for many years. For the past ten years he has been acting as a nurse, having done such work at a sanitarium in Stamford, and for a time was at the Norwich state hospital.

He is survived by his father, William F. Bailey, of Yantic, one brother, Jabez H. Balley, and one sister, Mrs. C. V. Pendleton, of Yantic.

Peplars and Privet Hedges.

The Derby Civic club is hustling along the work of planting the trees and the vines and shrubs which are to be get out in various places in that city during the spring. The early advance of the season has made it imperative that the work be pushed along very fast. The club has already ordered the various trees and plants from the nursery and it is expected that they will be delivered within a week.

Seventy-five Norway maples have been bought. These are to be planted in the streets of the city as the trees were planted last year. They are to be put down in loam and are to be protected by a wire screen and every cure is to be taken to make them grow. The trees that were set out by the club were so well planted and protected that it in said practically every one of them is living. The same care will be taken this year in the planting and it is hoped that the same success will follow the work.
